**Today's Featured company on The Speedy Gourmet is:**

**Waterlicious** is an all-new flavored bottled water line specially formulated for children featuring a wide variety of tastes kids enjoy – and parents approve. It is the first vitamin and fiber-enhanced flavored water for kids, Waterlicious provides a healthy alternative to high-calorie, high-sugar sodas and concentrated juices.

I love this idea. I don't much like my kids drinking soda, and there are only a few alternatives. I am thrilled to know of a **healthy kids drink** that is also full of vitamins. This one has it all, and I cannot wait to let my daughter try it. Here is more information on Waterlicious from their website:

Fiber - a key element in preventing child obesity – is an essential ingredient contained in each and every Waterlicious flavor, along with essential vitamins for healthy growth and development of strong bodies, including B3, B5, B6 and B12. The “B” group of vitamins also are identified for their ability to relieve stress and promote a calming effect on children while strengthening their immune systems and other vital organs. Waterlicious also contains Calcium and Vitamin C further increasing the water’s health benefits for children.

In contrast to the high-fructose corn syrup and artificial sweeteners found in other children’s soda and juice products, Waterlicious contains Crystalline Fructose, a natural fruit sugar that is slow to absorb and does not adversely affect blood sugar levels.

Waterlicious is made from the finest purified water. The all-natural flavors featured within the Waterlicious line include Soccer Berry, Super Apple, Peach, Lemon, Pineapple, Grape, Watermelon, Cherry and Strawberry Banana. It contains no color additives, and will not stain if spilled (good to know!)

The Waterlicious mission:  
 Our mission: To develop and market healthy and fun vitamin and fiber-enhanced hydration products that children and parents love, and create sustainable value for investors, customers, and the communities we serve.
